(22)	Tracking Point	When presenter enters this area, the camera will start tracking.	
(23)	Upper Body	Presenter's size on screen is upper body.	
(24)	Full Body	Presenter's size on screen is full body.	

Tracking Point Setup

Set up a tracking point as a start point of auto tracking. In general, tracking point is set at position of speaker and when camera detects people show at tracking point, camera will start to tracking. Also, when tracking is lost, camera will go back to tracking point after few seconds.

1. Press **MENU** button on remote control to call out OSD menu.
2. Go to **Network > DHCP > On**. Then, go to **System > Information** to check IP address of the camera.

3. Next, open the browser on your PC/laptop, enter the IP address of the camera, and connect to camera (Default login account and password are **admin/admin**). User should see the camera Web UI.

4. Select **Tracking Settings > Presenter**. Use **▲, ▼, ◀, ▶, ⊕** and **⊖** to set the camera position, then, select **Save to Preset 1** to save the tracking point. For more detail about setting of tracking, please refer to user manual.

Federal Communication Commission Interference Statement

NOTE: This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radiofrequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This device complies with part 15 of the FCC Rules.

The Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

This Class A digital apparatus complies with Canadian ICES-003. Cet appareil numérique de la classe A est conforme à la norme NMB-003 du Canada.

Warning: This is a class A product. In a domestic environment this product may cause radio interference in which case the user may be required to take adequate measures.
